

# HPTR7SA High-Precision Tweezers With Rubber Grip, Curved and Pointed Tip

Designed for delicate applications that require secure handling of small components while **maintaining maximum visibility**

Type 7 High Precision-Tweezers feature very fine, curved tips with a high-quality finish, ensuring precise handling.

ESD Rubber Grip guarantees electrostatic protection and ergonomic comfort, making them suitable for electronic and cleanroom environments.

With an overall length of 120 mm (4.72 in), they provide comfort and precision during extended use.
