

HPTR0C9SA High-Precision Tweezers With Rubber Grip, Sharp Tip and Short Body

Designed for delicate applications that require **secure handling of small components** while maintaining optimal visibility.

Type 0C9 High Precision Tweezers feature straight, fine, and sharp tips with a high-quality finish, ensuring precision in demanding tasks.

ESD Rubber Grip guarantees electrostatic protection and ergonomic comfort, making them suitable for electronic and cleanroom environments.

With an overall length of 90 mm (3.54 in), **their short body enables a firmer grip and improved handling**
