

C245911 Chisel Cartridge 3.2 x 1.2

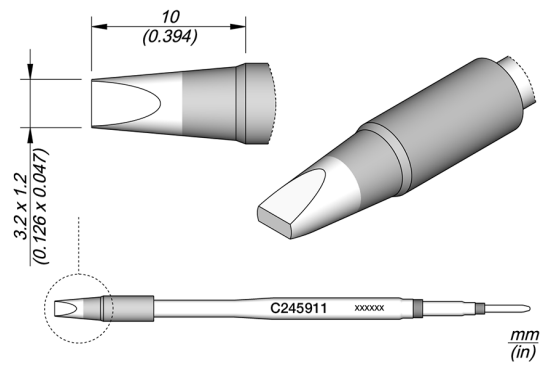

This is a **screwdriver** shaped cartridge with a wide **tinned** area. It is considered a **high thermal** model since the optimized tip geometry achieves thermal efficiencies of up to 40%.

C245 cartridges are appropriate for **general soldering** purposes and they are perfect for both **SMD components** or applications with high power requirements such as ground plane soldering.

They work with **T245 Handles**

JBC Long Life Tips offer instant heat up, excellent heat transfer and great durability.

They last **5 times longer** than other brands thanks to the JBC Most Efficient Soldering System and the Sleep & Hibernation features.
