

# HPTR3CSA High-Precision Tweezers With Rubber Grip and Pointed Tip

Designed for applications that require secure handling of small components while **maintaining optimal visibility**

Type 3C High-Precision Tweezers feature straight, fine and pointed tips with a high-quality finish, ensuring precision in delicate tasks. ESD Rubber Grip provides electrostatic protection and ergonomic comfort, making them suitable for electronic and cleanroom environments.

With an overall length of 110 mm (4.33 in), **the shorter body enables a firmer grip and improved handling**
