

Dispenses solder paste, adhesive, solder flux, etc. – ideal for SMT rework. Thanks to its design, the finger-contact point is very close to the point of application. In addition, DPM ensures a smooth feed of the solder paste for small and difficult-to-access components. With a metallic mechanism DPM ensures reliable performance even under intensive use, making it well-suited for demanding environments.

This type of dispenser is ideal for soldering multi-pin SMD components with hot air. DPM is compatible with a large variety of needles and tips for the highest dispensing precision. It can use 3cc or 5cc capacity syringe barrels.

See **needle range** for the highest dispensing precision.
(Solder paste and needle not included)

PRODUCT COMPOSITION

- 1 - Instruction Manual
- 1 - DPM Manual Paste Dispenser
- 2 - SB03CC 3cc Syringe Barrel
- 2 - SB05CC 5cc Syringe Barrel

SPECIFICATIONS

Net weight 0,06 kg (0.13lb)

WEIGHT AND DIMENSIONS

Control Unit	130 x 66 x 16 mm / 0.06 kg
	5.12 x 2.60 x 0.63 in / 0.13 lb
Package	155 x 85 x 55 mm / 0.10 kg
	6.10 x 3.35 x 2.17 in / 0.22 lb
