

HPTR00SA High-Precision Tweezers With Rubber Grip and Squared Tip

Designed for applications where components must be held securely while **maintaining precision and control**

Type 00 High-Precision Tweezers feature straight, thick, and robust tips with a high-quality finish, ensuring a secure and reliable grip. ESD Rubber Grip guarantees electrostatic protection and ergonomic comfort, making them suitable for electronic and cleanroom environments.

With an overall length of 120 mm (4.72 in), **they provide the strength and precision required for demanding tasks**
